

ARF-95 Series Animal Transport Unit

Six (6) Animal Compartments and One (1) Storage Compartment

Standard Construction

- Full 100% fiberglass-reinforced plastic construction throughout.
- Tubular steel crossmembers – molded into bottom of unit.
- Sides skirted to center line of rear wheels with fluted trim.
- Each compartment constructed separately, to prohibit contact with animals in adjoining compartments.
- Compartments finished smooth with rounded corners to facilitate cleaning. No sharp edges or cracks to collect dirt.
- Drain pan in front of each compartment, with drain hole.
- Compartment openings flush all around. No door frame or roof rail protrusions to hinder removal of animals or cleanout.
- Safety doors with catch pole cutout installed on each animal compartment.
- Compartment doors molded with five (5) extra large louvers on outside panel.
- Stainless steel door hinges and latches equipped with cylinder locks, all keyed alike. Large 6" handle for ease in opening.
- Roof reinforced underneath to provide adequate strength and durability.
- Standard large equipment compartment longitudinally between rear animal compartments.
- 750 CFM Fresh-Air Blower System installed to distribute fresh oxygen-bearing air equally to all compartments, exchanging air approximately 5 times a minute.
- Housing for Fresh-Air Blower System on roof with air distribution tunnel providing equal distribution to all compartments.
- Standard Full Through Compartment with center divider door.
- All body lights, reflectors, rear stop, tail, turn signals, back-up, and license lights installed – as required by Federal Highway Safety regulations.
- Auxiliary 4-way rear flashers, Red lens, 4 1/8" diameter. Operates through rear stop and turn lamps. Affords added safety.
- Heavy steel rear bumper installed with aluminum tread plate STEP/CAP. Mud and splash guards installed at rear wheels.
- Mounted onto chassis in an approved manner using rubber mounts to provide secure mounting. Easy to transfer to new chassis at any time.
- Color is white.
- Constructed with extra strength to resist damage, but if repairs are needed it is a simple operation. Merely clean damaged area and fill with fiberglass-plastic body filler as used by all boat marinas and auto body repair shops.

Optional Items:

- **Floor Deck Tiles** – Polyvinyl floor deck tiles in all animal compartments.
- **LED Bealon Light** – Available in red or amber.
- **Slide Out Trays** – For storage of cat carriers or small animal traps.
- **Air Conditioning** – Air conditioning unit installed in top forward section of body. Air channeled through duct system to each individual compartment. Unit installed in lieu of standard fresh air system.
- **Heating and Air Conditioning** – Heating and air conditioning unit installed in top forward section of body.
- **Scene Lights** – Flush mount side and/or rear scene lights installed in body roof rail above animal compartments.
- **Compartment Lights** – Stainless framed recessed compartment lights installed in compartment ceilings. Switch for lights on cab panel.
- **Rear Warning Lights** – Two (2) flush-mounted LED warning lights on rear body.
- **Temperature Monitor** – Temperature monitor readout on cab panel with sensor unit mounted on rear body air chamber.
- **Roof Racks and Wear Strips** – Heavy-duty streamlined polished aluminum tie-down rails on each side of roof. Aluminum wear strips on roof. For transport of traps, ladders, etc.
- **Lettering and Artwork** – Copy your logo, seal, letterhead, etc. Lettering applied to body sides and rear and cab doors per your specifications.
- **Pull Out, Fold Down Ramp** – 24" wide x 68" long ramp installed under right side front compartment.
- **Back-up Alarm** – 97 Decibel back-up alarm installed under rear of body.
- **Blind Spot Mirror** – 8" Diameter rear cross view safety mirror installed on upper left rear corner of body.
- **Traffic Advisor** – Directional traffic advisor light installed on rear of body.
- **Catch Pole Holder** – Bracket installed in rear storage compartment for catch pole storage.

Many other options available. Call for details.
