

Welcome Aboard!

Experience the lake the best way possible - by boat.

Step back in time on a guided, historic tour around the shores of the 187 year old Buckeye Lake. It's unique history includes its legacy as the first State Park in Ohio, the home of The Buckeye Lake Amusement Park and all the glory it created, as well as playing an important role in the Ohio Canals.

As the only Sternwheeler on any inland lake in Ohio, the Queen of the Lake III can accommodate up to 50 people on public and private tours and events. She has an onboard restroom and catering is available.

This was a 5 year restoration project completed by volunteers working with the Buckeye Lake Historical Society. All ticket sales are tax deductible and help keep the museum open to the public.

For bookings: email j-me@buckeyelakehistory.org or call 740-929-1998
